

OPERA myfidelio

Parkroyal, Singapore

Innovative, profitable and convenient online distribution services

myfidelio connects OPERA directly to Global Distribution Systems (GDS) and third Party Web Portals to allow you to share information in real time. Not only does it allow you to enjoy the seamless sharing of rates, inventory, restrictions and bookings through the two way interface, it allows you to increase your exposure to over 500,000 travel agents globally for a fraction of the cost of dealing with the GDS's directly.

Benefits to your property

Improve distribution

- Provide direct access to the Global Distribution Systems (GDS) including Amadeus, Sabre, Galileo and Worldspan and thus the international travel agency community of over 500,000 agents
- Link to and sell via over 100 Alternative Distribution Systems (ADS) including Expedia, wotif, lastminute.com booking.com, Hotelzon, Orbitz and many more!
- Maximise your visibility with access to a local team of experts included in your myfidelio.net full service package
- Show last minute availability, open/close rates per channel, set Travel Agent negotiated rates and deliver information in the right format with one, simple to use application

Increase revenue

- Increase occupancy with an expanded online presence and attractive booking facilities on your hotels website
- Increase your profit margin using the 'myfidelio connector' interface with OPERA to receive commission-free bookings via your website
- Help build hotel revenue by enabling customers to conveniently book hotel reservations online through the hotels web site using our easy to configure mylink product

View actionable information

- View actionable information in real time with detailed reporting on reservation activities from myfidelio.net
- Provide detailed reports on reservation activity and interact with OPERA via a unique connector for up and download of rates, inventory, restrictions and blocks
- Share yeild management recommendations directly with the channels

Save time and money

- Consolidate, control and distribute your hotel inventory in various channels from one single point of entry – with either the myfidelio.net front end; 'myhotel' or via your PMS
- Ensure your hotels information is delivered in the right format to the different GDS's
- Eliminate the need to log into extranets and/or third party applications with seamless channel management integration to OPERA PMS or OPERA ORS
- Reduce arduous data entry tasks thanks to an automated data synchronisation in real time between PMS, myfidelio.net and the various booking portals
- Manage inventory for group and allocation business with a unique block module which handles group reservations, negotiated and public rates, packages, cut off dates, pick-up etc
- Enjoy seamless set-up and configuration with myfidelio's complete installation package

Here at Wesley Lodge we go that 'extra mile' to make your visit to Sydney as enjoyable as possible. We're perfectly located in the heart of Greater Sydney, minutes from Parramatta and only a short walk from Westmead railway station, where trains depart regularly for the city centre. A local bus service links the motel with Parramatta's array of shopping and dining experiences. Business guests are well catered for with executive facilities and corporate rates. With our close proximity to Sydney Olympic Park, RAS Showgrounds, Parramatta City Raceway, Rosehill Gardens and Eastern Creek Raceway, we are the perfect place for a family getaway. Also Wesley Lodge features numerous requested guest amenities and services, including availability of wireless broadband, Foxtel and fresh milk. It's the little things like these that make a big difference ... and it's why so many people who stay with us, stay with us again.

Wesley LODGE

mylink for Wesley Lodge, Sydney

What does myfidelio do?

myfidelio.net connects your PMS to:

1. Global Distribution Systems (GDS) Amadeus, Sabre, Worldspan and Galileo
2. Alternative Distributions Systems (ADS) such as expedia and wotif.com
3. Your hotel websites booking engine (e.g. mylink)

myfidelio centralises your channel management

How does myfidelio work?

Two-way seamless integration...

myfidelio.net
Channel Manager

Opera

Property Management System

mylink Booking Engine

mylink is an out of the box web booking engine which can be added directly to your website in order to increase internet bookings. No development is required, simply add the link and watch your online bookings grow!

Fast return on investment

- Reduce installation costs and be up and running within a week by integrating mylink with your existing hotel website
- Immediately increase the profitability of your internet bookings with no manual entry of reservation emails into your property management system
- Only pay for the bookings you receive as unlike other booking engine providers, mylink has no software fees
- Configure and sell children rates, special offers and package upgrades
- Use Google Analytics to track pay per click campaigns (e.g. Google Adwords) and assist in the optimisation of your mylink booking site

Improve guest service

- Capture the loyalty of your guest by offering a guaranteed Best Available Rate
- Enable customers to check promotional rates, create and modify bookings and view historical reservations at any time with 24 hour access to your online portal
- Allow corporate and group guests to book using their negotiated rates or allotment codes
- Ensure personal information is up-to-date and retained for re-usage with profile registration that can be updated by the guest directly from the web
- Allow guests to build a unique package by offering add on experiences and services

Find out how your hotel can increase sales and reduce costs by contacting us today.
