

MICROS E7 Point-of-Sale

Totem Cafe, Balgowlah Sydney

Easy to install, quick to learn, cost effective

Be up and running after a day's training. Boost your business from around \$5 per day.

Benefits to You and Your Business

Enable Flexible Service

- Improve speed of service to promote higher spend and more return visits.
- Quickly make menu item and price changes from one terminal which are then effective across all.
- Menu item availability helps manage blackboard specials and monitor inventory levels.

Reduce Labour Costs

- e7's intuitive interface takes a bite out of the high cost of staff turnover.
- Detailed employee productivity information helps you take sound decisions to improve profitability.

Prevent Loss and Wastage

- Fast-printing dockets eliminate wasteful mistakes and customer complaints.
- Track and report on every item sold throughout the day.

Improve Operational Efficiency

- Comprehensive reports help identify both successful and unprofitable menu items.
- Current and historical reports provide you with clear and detailed data required for staffing plans and forecasting.
- Drill down in reports to dissect sales data to the check level.

MICROS Payment Gateway

- Our integrated card payment system sends money directly to your bank account from any terminal.
- Increase table turns, and eliminate keying errors.

- A single transaction report at the end of the day for all terminals makes for faster, easier, and more accurate back office reconciliations.

Manage Multiple Restaurants

- For customers operating multiple sites, MICROS offers an interface to *mymicros*, our online enterprise solution which includes business intelligence, inventory, menu item maintenance and customer relationship management.

Restaurant Arras, Walsh Bay Sydney

MICROS Benefits

- No complex hardware or network requirements
- One or more touchscreen terminals
- Full kitchen, coffee and bar printing
- Live, detailed reporting
- Easy maintenance and configuration
- Swipe card / Proximity reader / Biometric recognition
- Staff time and attendance / payroll report
- Secure access levels
- Product count down for specials and inventory
- Property management system integration

Reliability & Service

MICROS manufactures and supports both hardware and software, providing second-to-none service and maintenance. The workstation has no moving parts, fans or hard drives to break down, making it the most cost-effective and reliable POS terminal on the market.

Software

Through constant refining over 30 years of development, our intuitive user interface is highly adaptable and reliable, as well as easy to use:

- Combines high-performance and flexibility with superior, intelligent restaurant specific functionality.
- Embedded *Windows CE* operating system. A fully functional configuration that does not require a back office PC.

Hardware

MICROS manufactures and supports a superior hardware platform.

The *Workstation 5* – a fully functional, highly reliable POS terminal, with no moving parts and standalone resiliency to ensure maximum uptime:

- *Windows CE*
- No hard drives
- No fans
- No worries
