

OPERETTA | A World Class PMS Solution Tailored for You

OPERA, the world's most popular property management system, is now available in a ready to go, off the shelf solution; **OPERETTA**. This budget priced, bundled package includes simple to maintain hardware, interfaces to phone/internet systems, plus training for you and your team. Within as little as one week you could be running your entire operation from a simple-to-use, intuitive dashboard. Enjoy 24/7 support from a local team powered by a strong, global company and have the confidence you are using a world class solution used in over 12,000 hotels in 110 countries.

A Complete End to End Solution

- The OPERETTA solution includes:
 - An easy to maintain server including backup and anti-virus capabilities
 - Intuitive and easy to use software to manage all facets of your operations
 - Interfaces to popular Phone, Internet and Point of Sale systems for seamless integration
 - Installation, Configuration, Training and Live support completed within 7 days.
- Cost effective workstation and printer bundle also available.
- Possible to host offsite or run as an on property solution.
- Financing available to avoid capital expenditure.

Drive Business Growth

- Adopt integrated Revenue Management tools to drive occupancy and Average Rate.
- Collect valuable guest profile information to run membership programs and campaigns to increase repeat business.
- Increase internet bookings with the Optional Mylink Web Booking Engine.

Save Time and Money

- Manage all facets of your operation within one system; from reservations to housekeeping, from accounts receivable to commission handling.
- Only buy the functionality you need – save on training and maintenance costs.
- Implement automatic controls to avoid revenue loss through customer denials or mis-postings.
- Use online help and elearning to train and retrain staff.
- No lengthy night audit or month end processing required.
